MEMORANDUM

March 8, 1964

TO: Messrs. Bell, Malin, Craig

FROM: Norman Redlich

Mr. Liebeler has made an excellent observation which I am bringing to your attention. The eye-witnesses to the Tippit slaying have claimed that Oswald leaned right into the door of Tippit's car and spoke through the open window. But the photos of Tippit's car at the scene of the murder seem to show the window closed. Only the small vent window is open (Gen. Service Control No. 447, Comm. Doc. No. 87). Do any of you have information as to whether someone closed this window prior to the taking of photographs?
